

F-2013-00309 – Sperm donors registered in Scotland and London in the past year

15 January 2014

Summary of request

The Authority was asked for the number of sperm donors currently registered in Scotland and the number registered in the last year compared to the figure for London.

HFEA response

You have requested the number of sperm donors currently registered in Scotland and the number registered in the last year compared to the figure for London.

Please find that data in the table below.

Total donors until 31/12/2013	Total Scottish donors until 31/12/2013	Scottish donors 2013	London donors 2013
9245	555	27	189

Please note these figures have been derived from the total number of donor registrations regardless of whether they have been used or not. If more than one registration for a donor has been received then the earliest one has been included. When more than one registration has been received on the same day then we have included the one processed first. Therefore if a donor has been registered in both London and Scotland then they have been counted at the location at which they registered first.
