

F-2012-00206 - Egg freezing and births using frozen eggs since 2000

04 September 2012

Summary of request

The Authority was asked to provide information regarding egg freezing, patients using cryopreserved eggs and babies born from frozen eggs since 2000.

HFEA response

Extraction of the requested information would require a piece of bespoke analysis work on the data held in the HFEA's Register of Treatments. As we have limited analyst resources, before arranging bespoke analysis we would advise you to refer to a recent (18 June 2012) response to a similar enquiry, which can be found on the HFEA website at <http://www.hfea.gov.uk/7432.html>.

Please could you take a look through this and, should the information inadequately answer your query, inform us so that we can arrange some analysis work.
