

**F-2016-00036- Number of women receiving treatment aged 45 and over, number of live births and broken down by PGS and no PGS**

1 May 2016

**Summary of request**

The Authority was asked for information regarding the number of patients who have received treatment aged over 45 years old and the number of live births broken down by cycles that involved PGS and cycles that didn't involve PGS.

**HFEA response**

Please find attached the document which contains the information you have requested.

Please note that the HFEA can only provide data up to 30/06/2015 for treatment and data up to 30/06/2014 for outcomes, as this is the latest date for which we have verified information.

Two additional columns, C & F, have been included to give you treatment data from the same period as the outcome data.

This data was extracted from the HFEA's data warehouse containing Register data as at 29 February 2016. Please note that the information in our database may be subject to change as licensed centres notify us of information that updates or corrects information they have previously supplied.
